

INFANTS 2 SCIENCE PROJECT: EARTH DAY

Project #1 | Term 3 – May 2019

01/05/2019

Dear Parents and Students,

This term as we continue our Science journey, the students are learning about Earth Day and World Environment Day. For this term the students will have a simple project to complete on Earth Day. Earth Day is a special day celebrated on 22nd April every year. On Earth Day all persons around the world remember that we must protect our Earth.

The students will have to complete the attached worksheet. The students will have to complete the following on the worksheet:

- Things that they can REUSE
- Things that can be done to REDUCE waste
- Things that can be RECYCLED
- And what the students can do to help the EARTH.

Note: For the things that have to be coloured the students may use PAINT, COLOUR PENCILS or CRAYONS.

The purpose of this project is for your child to show his/her understanding about Earth Day and reusing things, reducing waste, and recycling and ways to help protect the Earth. This project will contribute to their Science course mark.

Due Date: **Tuesday 21st May, 2019.**

The project will be marked according to the following Rubric:

Writing Student Name, Subject and Class	1 mark
Colouring the EARTH DAY title	1 marks
Colouring the Earth	2 marks
Colouring all the different objects (Earth, bottles etc)	4 marks
Completing the writing portion	8 marks
Uniqueness and Effort	2 marks
Neatness/Presentation	1 mark
Following all instructions	1 mark
TOTAL	20 marks

Please note that marks will be deducted for late entries.

If you have any questions, please feel free to send an email to **leandrashingoo@gmail.com**. A soft copy of this letter may be found on my school website in my Infants 2 Science Term 3 Section.

Warm regards,

Mrs. Leandra Sebastien-Hingoo
